

DROBOTRON™

a USDr**o**botics company

BRINGING DIGITAL CONTENT TO THE SKIES !

SAFE

Our aerial platforms have been designed with safe, reliable operation as the primary focus. Every unit leaving our facility has proven itself through rigorous testing.

INNOVATIVE

Our patent-pending technology seamlessly integrates beautiful, high-resolution LED screens into state-of-the-art flying platforms allowing our users to take their content to the skies!

SIMPLE

From assembling the aircraft in the field to programming your own custom content, the Drobotron DL1200 is as simple to set up, operate, and maintain as it is for others to view and enjoy.
